

PURPOSE & FORM OF STAKEHOLDER DIALOGUES IN WATER CONSERVATION

Please discuss Stakeholder Dialogues that you have experienced:

- **Was the purpose geared more towards consultation or more towards cooperation and joint implementation?**
- **Did the form chosen fit the purpose?**
- **What kind of form would you identify as suitable for a stakeholders dialogue platform on water conservation in your country (Jordan, Egypt and Palestine)?**

Summarize on a flipchart, the range of purposes and forms represented in your group.

For reporting back into the plenary:

Please choose one example and share your insights into how form fitted the purpose and any other lessons learnt.
