ENTIRE - TARGET COUNTRIES

- Algeria
- Egypt
- Jordan
- Lebanon
- Morocco
- Syria
- Tunisia
- West Bank and the Gaza Strip

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - GENERAL OBJECTIVE

Strengthening the role of civil society organisations (CSOs) in:

- **reform,**
- **democratic changes**
- **and sustainable development**

of the water sector in the Southern Mediterranean Region.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - SPECIFIC OBJECTIVE

Empowering regional civil society organisation networks to **take an active role** in Integrated Water Resources Management (IWRM) in the region.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE – STAKEHOLDER DIALOGUE APPROACH

The complex challenges of integrated water resource management are far too complex to be solved by the public sector, civil society or private sector acting alone. **Cooperation is Key!**

In high quality Stakeholder Dialogues differences hold the **potential for innovative solutions** and the achievement of goals that ultimately benefit all.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE – THE STAKEHOLDER DIALOGUE APPROACH

The stakeholder approach strengthens the commitment of involved actors to common goals:

- by building **trust-based** relationships between stakeholders
- through finding effective ways of engaging stakeholders into a **result-oriented** and constructive collaboration
- by harvesting **collective intelligence** and individual expertise
- through ensuring **commitment** for implementation

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

THE DIALOGIC CHANGE MODEL

ENTIRE

Implementing Stakeholder Dialogues in a result-oriented way

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - EXPECTED RESULTS

- **Institutional capacity** of project partners and networks members in the water sector in the targeted countries is enhanced.
- Multi-stakeholder dialogues on Water Conservation as part of IWRM are improved. A **stakeholder platform** on Water Conservation is initiated in Jordan, Palestine and Egypt.
- **Best practice exchange** on IWRM are made available to collaborating institutions and relevant key actors.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - EXPECTED RESULTS

- **CSO networks are trained** to deliver capacity building programmes for the implementation and monitoring of stakeholder dialogue processes and will adopt this training module into their capacity building portfolio.
- A **web-based support** platform on stakeholder dialogues including online tools for continuous learning and best-practice exchange is established and made available for a broad audience.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - KEY INDICATORS

- 60 representatives are trained on **stakeholder dialogue methodology** from targeted countries.
- 20 representatives from the partners and their networks completed a **'Train the Trainer'** (TTT) course.
- Two multi-stakeholder networking events addressing **key water conservation aspects** are implemented and attended by 80 participants (representatives from the Government, CSOs, donor agencies, experts, and media).

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - KEY INDICATORS

- A **bi-annual newsletter** of the project is published and distributed.
- A **web-portal** for stakeholder engagement in IWRM is functioning.
- Compilation of **best practice examples** from Germany and the region in a handbook on Stakeholder Dialogues is available online for download.
- **Trainings** on stakeholder dialogues became an integral component of partners' training portfolios.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - ACHIEVEMENTS

- Project partners from ACWUA and RAED received a one month training on Stakeholder Dialogues including exposure trips to relevant German water stakeholders.
- The ENTIRE project team has been formed as the **core group** and planned the project further.
- A **project website** has been launched.
- A **baseline study** to assess the level of experiences of ACWUA and RAED members in stakeholders dialogue has been conducted.

This project is funded by the European Union's Non-State Actors and Local Authorities programme for "Strengthening the Capacities of Non-State Actors - Actions in partner countries (Multi-country)"

ENTIRE - ACHIEVEMENTS

- **High-level support** from the honored Jordanian Minister of Water and Irrigation for the ENTIRE kick-off event.
- **Water Conservation** was identified by the project team and through a survey among the network members from ACWUA and RAED.
- Participants from ACWUA and RAED networks were identified for the first training on Stakeholder Dialogues in water conservation.
